Ad Text America has always been hinged on hard-working people. If you remove jobs, you'll remove our country from the world map. The state of Pennsylvania rose owing to multiple enterprises mining coal, producing steel, and creating the need for other jobs, groceries, doctors, dentists, insurance, gas, vehicles, mechanics and the list goes on. As far as Mr. Trump pursues the goal of creating more jobs and supports the working class. He said he would put miners back to work. We could help Mr. Trump win Pennsylvania which is a battleground state. We'd like to organize a rally "Miners for Trump" in Pennsylvania.

Have something against coal industries? Please note then that burning coal is not more harmful than lumber. Alternative energy is only possible when subsidized by government for it is not lucrative. You cannot leave tens of thousands of people without a job just because of lobbyists' interests.
